

SBI CLERK PRELIMS MODEL TEST - 47

ENGLISH LANGUAGE

Directions (1-5): In the following paragraph, there is a set of four highlighted words against each number indicated in bold at the beginning of the sentences. One of the given words in each set may or may not fit into the statement. Choose the word which is not suitable in the context of the paragraph. If all the four words are correct and feasible, choose (5) i.e. "No error" as your answer.

Convulsing bond markets mean different things to different people. **(1)** If you run a government, it is **politely** bad that governments' borrowing costs are **shooting** up—as they are across the world. The **yield** on Japan's 30-year debt has **risen** above 4%, its highest ever; America's has topped 5%; Britain's is chugging fitfully towards 6%. **(2)** Since mortgage **cost** tend to move in **line** with these yields, anyone **looking** for a new one will also feel the **pinch**. **(3)** For bond traders, in contrast, the past **few** weeks have been **quiet** the thrill. A decade ago near-zero interest rates **seemed** to have permanently **shoved** their market into the deep freeze. Now it is red hot.

(4) It is not hard to see why. Inflation and yawning government **deficits** have **worried** investors for years, and the Iran war is **making** both problems **worse**. Bank of America conducts a monthly survey of global fund managers; in the latest, 40% of respondents said an inflationary wave was the biggest tail risk for markets. Despite this, 78% expected America's Federal Reserve to either cut rates or leave them unchanged over the next year. **(5)** They have **acted** accordingly, **slashing** holdings of cash and bonds, while raising their equity **allocations** by more than in any other month of the **surveys** 25-year history. This is just what you might do if you think money is too loose.

- | | | | | | |
|----|-------------|-------------|----------------|------------|-------------|
| 1. | 1) politely | 2) shooting | 3) yield | 4) risen | 5) No error |
| 2. | 1) cost | 2) line | 3) looking | 4) pinch | 5) No error |
| 3. | 1) few | 2) quiet | 3) seemed | 4) shoved | 5) No error |
| 4. | 1) deficits | 2) worried | 3) making | 4) worse | 5) No error |
| 5. | 1) acted | 2) slashing | 3) allocations | 4) surveys | 5) No error |

Directions (6-10): In this question, phrases (A), (B), (C) and (D) are given in bold. If two of these phrases are interchanged, the sentence will be meaningful and grammatically correct. Identify the pair of phrase, if interchanged which will make the sentence meaningful and grammatically correct. That pair is your answer. If all the phrases are appropriate then mark 'All Correct' as your answer.

6. Anabolic steroids (aas) are some of the most potent **of the heavy lifting for every athlete (A)**, especially for boosting strength and power. They will probably be doing most **performance-enhancing drugs known (B)** at the games. And they are popular with non-athletes, too: one meta-analysis from 2014 **estimated that 6% of men have used them (C)** at least once. But just **how effective (D)** are they?
- 1) Both AC and BD 2) Both AB and CD 3) Only BC 4) Only AB 5) All correct

7. Uncovering how a virus **infected whom—and, most important, where and how (A)** some tricky detective work. The schedules of all those infected have to be carefully examined **more accurately such records (B)** they fell ill, in order to work out who **spreads among a population involves (C)**. The more isolated the population, the **in the days or weeks around the time (D)** can be gathered.
- 1) Both AC and BD 2) Both AB and DC
3) Both AD and BC 4) Only AB 5) All correct
8. The disease detectives **had occurred among the known cases (A)** what sorts of interactions **on board were tasked with working out (B)**, as well as between that cohort and the healthy passengers, in order to help manage the outbreak. In time, **the data will also help researchers assess (C)** the odds of a particular type of contact **leading to transmission of the virus (D)**, which will help manage future outbreaks.
- 1) AC 2) BD and AC 3) AB 4) AB and CD 5) All correct
9. It's easier to feel better about **optimism also propels people (A)** to shape it. One reason why bosses have a **surely that they have more control (B)** towards ai than workers is **more positive attitude (C)** over what will happen. But **the future if you have an ability (D)** onwards and upwards.
- 1) AB and CD 2) AD and BC 3) AC and BD 4) AC 5) All correct
10. People are conditioned to look for negative signals, reckons Mr Gore. Explaining **why things might go wrong is seen as more sophisticated (A)** than believing that things will turn out well. **Loss aversion, a strong behavioural bias against giving up (B)** what you already have, means that the scales **are already tipped against risk-taking (C)**. Mr Gore thinks that the trope of **learning from failures is overdone (D)**; successes teach you more.
- 1) BD 2) AB 3) AC 4) BC 5) All correct
- Directions (11 - 15):** Which of the phrases given below should replace the phrase given in bold in the following sentence to make it meaningful and grammatically correct? If the sentence is correct as it is and no correction is required, mark (e) as the answer.
11. The wildlife photographer **carries professional camera and tripod** into the forest for the early morning shoot.
- 1) carried a professional camera and a tripod
2) carry the professional camera and tripod
3) carried professional camera and the tripod
4) carried a professional camera and tripod 5) no correction required
12. The government introduced new policies aimed at **insulating the economy for external shocks**.
- 1) insulating the economy by external shocks
2) insulating the economy with external shocks
3) insulating the economy from external shocks
4) insulating the economy againsts external shocks 5) no correction required
13. The little boy **resembles to his father** so closely that people often mistake them for brothers in old photos.
- 1) resembles with his father 2) resembles his father
3) resembles of his father 4) resembles by his father 5) No correction is required

14. She **just returned** from the library after borrowing several books for her history project.
 1) has just returned 2) have just returned 3) returned
 4) will be returning 5) No correction is required
15. **The little girl happy shared her lunch** with her classmates during the school picnic yesterday.
 1) A little girl happily shares her lunch 2) The little girl happily shared her lunch
 3) The few girl happily shared her lunch
 4) A few girl happily shared her lunch 5) No correction is required

Directions (16-20): In this question a sentence divided into four parts denoted by (A), (B), (C) and (D) has been given. Read the sentence to find out whether there is any grammatical error in it. The error if any will be in one part of the sentence. That part is the answer. If there is no error, the answer is "No error". Ignore the errors of punctuation if any.

16. Governments often face criticism, (A)/ where it comes to implementing (B)/welfare schemes, for failing to (C)/bridge the gap between policy and practice.(D)
 1) A 2) B 3) C 4) D 5) No error
17. Yet the risk varies significant based on the type of franchise. (A)/ "The chances of succeeding with a new restaurant (B)/are much greater if you're part of a franchise that has worked out the systems, (C)/ has high brand awareness and a huge marketing budget that's helping you," says Mr Flynn. (D)
 1) A 2) B 3) C 4) D 5) No error
18. The Spanish prime minister signs a (A)/ thick vellum document, before passing the (B)/ Mont Blanc pen to German (C)/chancellor, then the Ukrainian president.(D)
 1) A 2) B 3) C 4) D 5) No error
19. The current states of (A)/Britain-EU relations offers (B)/nary a hint of what response (C)/might emanate from Brussels.(D)
 1) A 2) B 3) C 4) D 5) No error
20. The main reason for reluctance (A)/about Bre-entry on the EU side is (B)/ a niggling doubt as to whether Britain (C)/can ever be counted on to stay in.(D)
 1) A 2) B 3) C 4) D 5) No error

Directions (21-28): Read the following passage carefully and answer the questions given below it. Certain words are given in bold to help you locate them while answering some of the questions.

When Greg Flynn graduated from Stanford Business School in 1994, with the dotcom boom in full swing, his friends chose the obvious career path. But while they "were all making PowerPoint presentations...becoming paper millionaires," he went off to help a friend open a second restaurant. A few years later, spotting **generous** financing on offer for would-be franchisees, Mr Flynn bought eight Applebee's restaurants of his own. He now runs more than 3,000 franchise outlets across seven brands in three countries, and is reportedly worth more than \$1bn, probably the first franchisee in the world to reach that milestone. On February 22nd the International Franchise Association, a lobbying group, inducted him into its Hall of Fame—an **accolade** previously reserved for franchisors, the innovators on the other side of the business who established big chains, such as Ray Kroc of McDonald's or Colonel Harland Sanders of kfc.

Mr Flynn's is a tale of slow and steady success. So is that of the franchise model, which began spreading across America in the 1950s. Nowadays there are close to 850,000 franchise establishments in the country, run by around 250,000 owners, employing some 9m people and generating about 3% of GDP. As many as one in six businesses with at least one employee are part of a franchise. All kinds of establishments, from Dunkin' Donuts to the ups Store and most Marriott hotels, are franchised. And lately the model has been spreading into new categories—such as boutique fitness, home services and child care—thanks in part to private-equity investors that have become enthusiastic franchisors.

Owning a franchise may be the purest distillation of the American dream. Some 95% of McDonald's 14,000 American outlets are operated by franchisees, and the chain has plausibly created more millionaires than any firm in history. "We're not all going to be Steve Jobs or Elon Musk," says Matt Haller, who runs the ifa, but many can imagine themselves saving up to have a go at the all-American business of "slinging hamburgers". The proposition has long appealed to immigrants in particular: around two-thirds of American motels are owned by Indians, many descended from Gujaratis who bought Super 8 and Travelodge franchises in the 1980s.

Mr Haller says franchisees now report growing interest from their children in succession plans. That is perhaps unsurprising. A decade ago the path to prosperity for young Americans looked certain: a college education and a white-collar "laptop" job. But rising tuition fees and the emergence of artificial intelligence have prompted renewed interest in the trades and other more pedestrian ways to make a living. In-person businesses—teaching pilates, cooking food—look like a safer bet now. "There's really not a franchise that you can run without people," says Mr Haller.

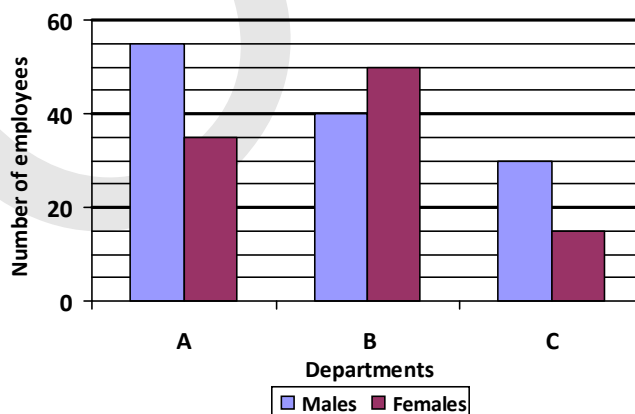

21. Why did Greg Flynn choose a different career path after graduating from Stanford Business School?
 - 1) He wanted to join the technology industry immediately
 - 2) He decided to assist a friend in expanding a restaurant business
 - 3) He planned to pursue higher studies in business management
 - 4) He accepted an international corporate job opportunity
 - 5) He aimed to establish a software company independently
22. According to the passage, what helped Greg Flynn purchase Applebee's restaurants?
 - 1) Support from international investors and technology firms
 - 2) Assistance received from government entrepreneurship programs
 - 3) Availability of generous financing for potential franchise owners
 - 4) Large inheritance obtained from his family business network
 - 5) Partnership opportunities provided by multinational companies
23. What does the passage suggest about the franchise model in America?
 - 1) It contributes significantly to employment and economic growth
 - 2) It operates mainly in rural agricultural business sectors
 - 3) It depends entirely on government financial assistance programs
 - 4) It has reduced opportunities for small business ownership
 - 5) It is limited only to the food and hospitality sector

24. Why does the author describe franchise ownership as part of the "American dream"?
- 1) It guarantees immediate financial success for all owners
 - 2) It creates equal wealth distribution across all industries
 - 3) It provides free educational opportunities to immigrants nationwide
 - 4) It eliminates competition among businesses in urban markets
 - 5) It allows ordinary people to become successful business owners
25. According to the passage, why are young Americans showing renewed interest in franchise businesses?
- 1) Declining population growth in major metropolitan regions
 - 2) Increased availability of international travel opportunities abroad
 - 3) Expansion of manufacturing industries across developing countries
 - 4) Rising tuition costs and concerns about artificial intelligence
 - 5) Growing preference for government employment and administration
26. Which of the following is TRUE according to the passage?
- 1) Most Marriott hotels in America are directly government operated
 - 2) Franchise businesses are restricted mainly to restaurant chains
 - 3) Private-equity investors are supporting expansion into new sectors
 - 4) Artificial intelligence has completely replaced service-sector employment
 - 5) Indians rarely participate in the American motel franchise industry
27. Choose the word most nearly OPPOSITE in meaning to the word "**generous**" as used in the passage.
- 1) Liberal
 - 2) Abundant
 - 3) Stingy
 - 4) Helpful
 - 5) Supportive
28. Choose the word most nearly SIMILAR in meaning to the word "**accolade**" as used in the passage.
- 1) Criticism
 - 2) Punishment
 - 3) Failure
 - 4) Honour
 - 5) Obstacle
- Directions (29):** Choose the word which expresses nearly the opposite meaning of the given word.
- Appraise
- 1) gauge
 - 2) scrutinize
 - 3) deride
 - 4) estimate
 - 5) survey
- Directions (30):** Choose the word which expresses the same meaning of the bolded word in the given sentence.
- Salmon **thrash** their tails and leap from the water.
- 1) wiggle
 - 2) flap
 - 3) moves
 - 4) destroy
 - 5) calm

NUMERICAL ABILITY

Direction (31-36): Refer to the graph and answer the given questions.

The given data depicts the number of male employees and number of female employees in three departments :- A, B and C of a company in 2023.

31. In 2024, number of females in department Q was 40 more than the number of males in department A in 2023. What is the difference between total number of females in departments B and C together in 2023 and number of females in department Q in 2024?
- 1) 25
 - 2) 40
 - 3) 20
 - 4) 10
 - 5) 30

32. What is the respective ratio between number of employees (male + female) in department A and total number of male employees in departments A and B together ?
 1) 17:19 2) 18:19 3) 13:14 4) 15:19 5) 13:19
33. In department X, number of employees (male + female) is 2.5 times more than the number of male employees in department B. What is the number of employees (male + female) in department X ?
 1) 120 2) 140 3) 110 4) 100 5) 150
34. Out of the total number of male employees in departments A and C together, 40% got promoted. What is the total number of male employees in departments A and C together who were NOT promoted ?
 1) 51 2) 34 3) 42 4) 46 5) 25
35. The number of male employees in department A was what percent more than the number of male employees in department B ?
 1) 42.65 2) 40.55 3) 30.25 4) 32.65 5) 37.5
36. What is the difference between total number of female employees in departments A and C together and number of male employees in department B ?
 1) 15 2) 8 3) 5 4) 10 5) 0

Direction (37-39): Study the table and answer the given questions.

The given data depicts the number of Teachers, Farmers and Lawyers in two districts: - A and B.

Profession	Districts	
	A	B
Teachers	240	175
Farmers	80	155
Lawyers	96	140

37. The respective ratio between the number of farmers in district B and number of farmers in district Y is 5:7. What is the number of farmers in district Y ?
 1) 224 2) 140 3) 217 4) 350 5) 280
38. Number of lawyers in district A is what percent more than number of farmers in district A ?
 1) 25 2) 20 3) 55 4) 60 5) 40
39. What is the difference between the total number of teachers in districts A and B together and the number of lawyers in district B ?
 1) 195 2) 215 3) 220 4) 275 5) 260
40. Anju purchased 50 books and 70 books on Monday and Tuesday respectively. Out of the number of books purchased by Anju, equal number of books were left unsold on each day. The respective ratio between number of books sold on Monday and on Tuesday by Anju was 3:5. What was the total number of books sold by Anju on both days together ?
 1) 120 2) 80 3) 40 4) 50 5) 60
41. Average weight of 5 persons is 67.2 kg. If the heaviest person is excluded, the average weight of remaining 4 persons become 64 kg. What is the weight of the heaviest person ? (in kg)
 1) 84 2) 80 3) 74 4) 68 5) 82

42. A and B together started a business by investing Rs.8000 and Rs.6000 respectively. After 9 months from the start of the business, B left and C joined by investing Rs.12000. If the total annual profit received is Rs.31000, what is B's share in annual profit ? (In Rs.)
 1) 9000 2) 18000 3) 15000 4) 12000 5) 24000
43. Rupesh sold an article at Rs 5400, thereby incurring a loss of 10%. Had he sold the article at marked price, he would have earned a profit of 40%. What is the marked price of the article? (in Rs)
 1) 8400 2) 9000 3) 8000 4) 9400 5) 8600
44. A alone and B alone can complete a work in 4 days and 10 days respectively. B alone started the work and worked for certain days. A joined B two days before the work is completed. For how many days, B alone did the work?
 1) 4 2) 2 3) 1 4) 3 5) 5
45. A positive integer is divided by 7, quotient and remainder obtained are 'X' and 3 respectively. When the same number is divided by 6, quotient and remainder obtained are 'Y' and 2 respectively. If the difference between X and Y is 1, what is the value of (X + Y)?
 1) 15 2) cannot be determined 3) 12 4) 13 5) 11
46. Respective ratio between the distance covered by trains A and B is 2:3. Time taken by B to cover the distance is 2 hours more than the time taken by A. If the respective ratio between the speeds of A and B is 4:5, what was the time taken by A? (in hour)
 1) 8 2) 6 3) 10 4) 12 5) 15
47. The side of a square is $\frac{3}{7}$ th of the diameter of a circle. If the area of the circle is 616 cm^2 , what is the area of the square? (In cm^2)
 1) 144 2) 100 3) 225 4) 169 5) 196
48. A and B started a business with the initial investments of Rs 550 and Rs 300 respectively. At the end of 8 months from the start of business, A left. Out of the total profit earned (Rs 4000) at the end of the year, what is A's share? (in Rs)
 1) 1100 2) 2800 3) 3300 4) 2200 5) 2000
49. Out of his salary, Raju spent 20% on his bike. From the remaining salary, he gave 30% to his parents and saved the remaining. If his savings is Rs 28000, what is 120% of his salary? (in Rs)
 1) 60000 2) 50000 3) 40000 4) 45000 5) 55000

Direction (50-62): What should come in the place of question mark (?) in the following questions.

50. $(15 \times 180) \div 60 = \sqrt{27^2 - 11.25 \times ? + 39^2}$
 1) 20 2) 23 3) 15 4) 16 5) 25
51. $14^2 - 5^3 + \sqrt{1296} = ?\% \text{ } 267.5$
 1) 20 2) 30 3) 50 4) 24 5) 40

52. $11\frac{1}{9}\%$ of $639 \times 3 + ? = 27 \times 15$
 1) 294 2) 192 3) 216 4) 196 5) 202
53. $\frac{37 \times 19 + 17}{24} + ? = 8^3 + 208$
 1) 490 2) 610 3) 590 4) 690 5) 700
54. $3\frac{2}{21} \div 2\frac{1}{7} \times 1458 = 3500 - ?$
 1) 1304 2) 2016 3) 1394 4) 3094 5) 1404
55. $65.5 \times 5.5 + 25\%$ of $183 = ?$
 1) 416 2) 436 3) 516 4) 425 5) 406
56. $16\frac{2}{3}\%$ of $456.6 + 152.3 \times 3 = ?$
 1) 533 2) 435 3) 393 4) 313 5) 423
57. $27 \times 43 - 73 \times 9 + 89 \times 13 = ?$
 1) 1814 2) 1816 3) 1610 4) 1561 5) 1661
58. $266 \div 19 \times 17 + ? = 7^3$
 1) 119 2) 115 3) 110 4) 105 5) 100
59. 46% of $1455 - ? = 23\%$ of 2205
 1) 109.15 2) 160.25 3) 162.15 4) 150.52 5) 110.25
60. $133.5 + 239.7 - 329.77 + 897.666 = ?$
 1) 844.096 2) 960.096 3) 850.016 4) 950.066 5) 941.096
61. $\sqrt{5264} + ? + 35 = 116$
 1) 1297 2) 1280 3) 1310 4) 1352 5) 1240
62. 45% of $(65 \times 28) = ?$
 1) 829 2) 833 3) 824 4) 736 5) 819

Direction (63-65): In the given question two equations numbered I and II are given. You have to solve both the equations and mark the appropriate answer.

63. I. $x^2 - 18x = 0$ II. $y^2 - 40y + 396 = 0$
 1) $x > y$ 2) $x < y$ 3) $x \geq y$ 4) $x \leq y$ 5) $x = y$ or no relation
64. I. $5x^2 - 29x + 40.8 = 0$ II. $3y^2 - 34y + 95 = 0$
 1) $x > y$ 2) $x < y$ 3) $x \geq y$ 4) $x \leq y$ 5) $x = y$ or no relation
65. I. $x^2 - 7x - 98 = 0$ II. $y^2 - 6y - 91 = 0$
 1) $x > y$ 2) $x < y$ 3) $x \geq y$ 4) $x \leq y$ 5) $x = y$ or no relation

REASONING ABILITY

Direction: (66-70) Study the following information carefully and answer the given questions.

Eight people - P, Q, R, S, T, U, V and W are sitting in a straight line with equal distance between each other. Some of them are facing the North direction while some of them are facing the South direction.

(Note: Facing same direction means if one person faces north then other one will also face north and vice versa. Facing opposite directions means if one person faces north then other one will face south and vice versa).

R sits third to the left of V, who sits second from one of the ends. Only two people are sitting between T and P, who sits immediate left of R. T doesn't sit at any ends of the line. W doesn't sit immediate to T and sits to the left of P. Immediate neighbours of P are facing the opposite directions. W sits second to the right of Q. S and Q don't sit at any ends of the line. S is facing the South direction. People sitting at the extreme ends face the same direction but not same as V. Both S and T sit immediate left to each other.

66. How many people sit to the right of Q?
 1) Two 2) One 3) Three 4) No one 5) More than three
67. Who amongst the following people sits third to the left of R?
 1) W 2) P 3) V 4) T 5) U
68. Who among following pairs of people are immediate neighbour of P?
 1) W-V 2) V-U 3) W-Q 4) R-Q 5) Q-T
69. Four of the following five are alike in a certain way based on their directions as per the given arrangement and hence form a group, then which one of the following doesn't belong to that group?
 1) W-U 2) P-S 3) V-P 4) Q-R 5) S-U
70. Who among the following people sits second to the right of the one who sits third to the left of T?
 1) S 2) V 3) Q 4) U 5) R

Direction: (71-75) Study the following information carefully and answer the given questions.

Certain number of people are sitting in a linear row with an equal distance between adjacent people and all of them are facing the North direction.

Q sits third to the left of M. Only five people sit between R and M. As many people sit between G and U as between T and M. G sits exactly middle of W and M. P sits at one of the ends. Only one person sits between R and T, who sits second from the right end. N sits second to the left of W. Number of people sit between N and Q is one more than the number of people sit between T and R. As many people sit between N and S as between S and U. Only one person sits between U and P.

71. How many people sit in a row?
 1) 22 2) 23 3) 24 4) 25 5) 26
72. How many people sit between S and G?
 1) Four 2) Six 3) Three 4) Five 5) Seven
73. As many people sit between W and M is same as sit between ____ and ____.
 1) N, U 2) Q, M 3) N, S 4) G, M 5) U, R
74. Four of the following five are alike in a certain way based on their positions as per the given arrangement and hence form a group. Which one of the following doesn't belong to that group?
 1) W-G 2) S-N 3) N-W 4) R-T 5) G-Q
75. How many people sit to the left of the one who sits fourth to the left of W?
 1) Six 2) Seven 3) Five 4) Four 5) Eight

Direction: (76-80) Study the following information carefully and answer the given questions.

Eight boxes - A, B, C, D, E, F, G and H are kept in a stack from bottom to top. The bottom most box is numbered 1 the box immediately above to it is numbered 2 and so on until the topmost box is numbered eight.

Only three boxes are kept between Box D and Box F. Only two boxes are kept between Box C and Box H, where box H is kept above Box C. As many boxes are kept between Box F and Box C as between Box C and Box D. Box F is kept above Box B, which is kept below the Box G. Only two boxes are kept between Box G and Box A, which is kept immediate to Box B. Only two boxes are kept between Box F and Box G.

76. How many boxes are kept between Box C and Box B?
 1) Three 2) Five 3) Two 4) One 5) Four
77. Which of the following boxes is kept at exactly between of Box E and Box B?
 1) Box C 2) Box G 3) Box A 4) Box D 5) Box F
78. Which box is kept at top of the given stack?
 1) Box D 2) Box H 3) Box A 4) Box C 5) Box F
79. Four of the following five are alike in a certain way based on their positions as per the given arrangement and hence form a group, then which one of the following doesn't belong to that group?
 1) Box H-Box C 2) Box B-Box C 3) Box G-Box C 4) Box C-Box H 5) Box E-Box D
80. As many boxes are kept between Box F and Box D as kept between ____ and ____.
 1) Box C-Box A 2) Box G-Box E 3) Box E-Box H 4) Box F-Box B 5) Box A-Box G

Direction: (81-85) Study the following information carefully and answer the given questions.

Eight people namely - A, B, C, D, E, F, G and H bought fruits viz. Mango, Kiwi, Apple, Orange, Banana, Papaya, Grapes and Guava. They bought one after another on the same day but not at same time.

G bought Kiwi. Only four people bought between D and the one who bought Papaya. Only two people bought between E and the one who bought Grapes but neither of them bought immediate to the one who bought Papaya. Only one person bought between G and the one who bought Orange. D bought Apple. At least four people bought between B and the one who bought Apple. Only three people bought between the one who bought Orange and the one who bought Guava. Neither E nor C bought Banana and Guava. C bought before F, who was not bought Grapes and both bought before G. H bought Mango but not immediate to D. The one who bought Orange bought after G, who bought immediately before the one who bought Apple.

81. Who amongst the following people bought Guava?
 1) E 2) D 3) A 4) F 5) G
82. How many people bought between C and the one who bought Kiwi?
 1) One 2) Three 3) No one 4) Four 5) Two
83. Who amongst the following people bought Papaya?
 1) C 2) A 3) D 4) G 5) E
84. As many people bought between F and the one who bought Orange as between ____ and ____
 1) The one who bought Apple, E 2) H, the one who bought Grapes
 3) The one who bought Papaya, F
 4) D, The one who bought Mango 5) C, The one who bought Banana
85. Four of the following five are alike in a certain way based on their positions as per the given arrangement and hence form a group. Which one of the following doesn't belong to that group?
 1) B-Mango 2) H-Grapes 3) F-Kiwi 4) G-Guava 5) G-Orange

Direction: (86-88) In these questions three statements followed by two conclusions numbered I and II have been given. You have to take the given statements to be true even if they seem to be at a variance from commonly known facts and then decide which of the given conclusions logically follow from the given statements, disregarding commonly known facts.

86. **Statements:** Only a few Cups are Glasses Each Glass is Jug
 Mostly Jugs are Buckets
Conclusions: I. Mostly Glasses are Buckets II. Some Cups are Buckets
 1) Only conclusion I follows 2) Only conclusion II follows
 3) Either conclusion I or II follows
 4) Neither conclusion I nor II follows 5) Both conclusions I and II follow
87. **Statements:** All Pens are Books Some Books are Mobiles
 Only a few Mobiles are Bottles
Conclusions: I. Some Pens are Bottles II. All Books can be Bottles
 1) Only conclusion I follows 2) Only conclusion II follows
 3) Either conclusion I or II follows
 4) Neither conclusion I nor II follows 5) Both conclusions I and II follow
88. **Statements:** Some B's are C's All C's are D's
 Some D's are E's
Conclusions: I. Some B's are E's II. No B's are E's
 1) Only conclusion I follows 2) Only conclusion II follows
 3) Either conclusion I or II follows
 4) Neither conclusion I nor II follows 5) Both conclusions I and II follow

Direction: (89-91) In the following questions, the symbols @, \$, %, # and ? are used with the following meaning as illustrated below.

'A % B' means 'A is not smaller than B'.

'A @ B' means 'A is neither smaller than nor equal to B'.

'A * B' means 'A is neither greater than nor equal to B'.

'A \$ B' means 'A is not greater than B'.

'A # B' means 'A is neither greater than nor smaller than B'.

Now in each of the following questions assuming the given statements to be true, find which of the three conclusions I, II and III given below them is / are definitely true and give your answer accordingly.

89. **Statements:** P \$ T, R # T, R % O, K * O
Conclusions: I. P @ O II. P \$ O III. T @ K
 1) Only I and II are true 2) Only III is true 3) Only either I or II and III are true
 4) Only II and III are true 5) All I, II, III are true
90. **Statements:** M % N, W * T, N \$ W, S # T
Conclusions: I. N * S II. W # S III. M @ T
 1) Only I is true 2) Only I and III are true
 3) Only either I or II and III are true 4) Only II and III are true 5) None is true
91. **Statements:** D \$ E, F # E, H @ G, G % F
Conclusions: I. D # G II. D * G III. E * H
 1) Only either I or II is true 2) Only either II or III is true
 3) Only either I or II and III are true
 4) Only II and III are true 5) All I, II, III are true

Direction: (92-94) Study the following information carefully and answer the given questions.

Seven people namely - K, L, M, N, O, P and Q contain different quantities of milk in litres. No two people contain same quantity of milk. L contains more quantity of milk than only three people. The one who contains least quantity of milk has 24 litres. M contains square of 6 litered milk and contains less quantity than both P and O. L contains 18 litres more milk than M. K contains more quantity of milk than both L and O. N doesn't contain least quantity of milk. P contains less quantity of milk than O. M contains more quantity of milk than N.

92. Who amongst the following people contains third highest quantity of milk?
1) O 2) L 3) P 4) M 5) N
93. How many liters of milk can N have?
1) 20 2) 40 3) 37 4) 28 5) 22
94. If L and O contain 125 liters of milk, then how many liters of milk is possibly does K contain?
1) 68 2) 72 3) 66 4) 65 5) 69

Direction: (95-97) Study the following 3-letter words carefully and answer the given questions.

CUT LAN HUT BOY RAT PEN

95. If the first and third letters of each word are changed to previous letter according to the English alphabetical order, then how many meaningful words can be formed?
1) Three 2) One 3) Four 4) Two 5) More than four
96. If the vowel in each of the given words is changed to its next letter and each consonant is changed to its previous letter according to the English alphabetical order, then how many words will have repeated letters?
1) Two 2) One 3) None 4) Three 5) Four
97. If all the words are arranged according to the English dictionary from left to right then which of the following words is third from the right end?
1) CUT 2) LAN 3) RAT 4) HUT 5) PEN
98. If it is possible to make only one meaningful four letter English word with the second, the third, the seventh and the tenth letters of the word "UNANIMOUSLY" using each letter only once, when counted from left to right, which of the following will be the first letter of the word so formed from the left end? If no such word can be formed then give 'X' as your answer. If more than one such word can be formed then give 'Z' as your answer.
1) N 2) L 3) O 4) X 5) Z
99. In a row of students, B is 12th from the right end and C is 9th from the left end. If 24 students are between C and B, then how many students are there in the row?
1) 45 2) 47 3) 46 4) 44 5) 48
100. How many such pairs of letters are there in the word 'COLLECTED', each of which has as many letters between (in both forward and backward direction) them in the word as they have between them in the English alphabetical order?
1) Two 2) Four 3) One 4) Three 5) More than four
